PROFILE INFO

I bring passion for crafting intuitive user experiences. I excel at working with cross functional teams to translate user needs into effective interfaces. Results-driven, I thrive on iteratively improving products to ensure smooth user journeys. Led **UX for B2B SaaS**, **wellness platforms**, and **automotive e-commerce**—achieving **85% user satisfaction**.

EXPERIENCE

Nov 2024 - Present

Crion Technology | Chennai (Remote).

Freelance Product Designer

- Continuing design consulting for **CLONOS platform evolution**, supporting feature development and system enhancements
- Providing design expertise for **new client implementations and platform optimization initiatives**
- Worked on Projects for **Daimler - Digital Twin** and **Eli Lily - VR Modules**.

Sep 2025 - Nov 2025

Techlanz | Banglore.

UI UX Design Intern

- Created complete brand identity including **logo, design system**, and **pitch deck** for new product launch, **directly used in investor presentations**
- Designed **Information Architecture for Battery Management App** and product website, establishing navigation hierarchy and content structure
- Built e-commerce page designs optimized for conversion and mobile experience as part of product marketing website

Mar 2025 - May 2025

Max 1 Motors | Dubai (Remote)

UI / UX Designer

- Led complete website revamp for luxury car dealership, **delivering mobile** and **desktop responsive designs** within **8-week timeline**
- Designed conversion-optimized user flows for **inventory search, vehicle comparison**, and lead capture, projected to reduce bounce rate by 25%
- Created **15+ high-fidelity screens** spanning **homepage, listings, vehicle details, financing calculator, and inquiry journeys**

Nov 2024 - Mar 2025

Vyana Wellness | Dubai (Remote)

UI / UX Designer

- Led UI/UX design for **investor-ready MVP** showcased to VCs, translating business requirements into user-centered solutions within 4-month timeline
- Designed **client management dashboard** and referral system supporting multi-user workflows for practitioners, clients, and referral partners
- Shipped initial platform release with **streamlined onboarding, appointment booking, and customer engagement features**

EDUCATION

2025 - Present | Symbiosis Institute of Design

M.Des User Experience Design

2022 - 2023 | IIT-Gawhati (Intellipaat)

Advanced Certification in UI/ UX Design Strategy.

2018 - 2022 | KPRIET

B.E Mechanical Engineering

CGPA: 7.71

HARD SKILLS

- User Research
- User Interface Design
- User Flow
- Ideation
- Information Architecture
- Micro Interaction
- Wire-framing
- Visual Design
- Usability Testing
- Web Design
- Prototyping
- A/B Testing

SOFT SKILLS

- Empathy
- Listener
- Collaboration
- Communication
- Problem Solving
- Creativity

Aug 2023 - Nov 2024

Crion Technologies | IIT-M Research Park, Chennai.

Junior UI UX Designer cum Product Designer

- Pioneered complete UX design for **CLONOS, a digital twin EAM platform**, shipping high-fidelity interfaces across web, tablet, and mobile serving enterprise clients
- Reduced work order processing time by **75% (2 hours → 30 minutes), driving 30% increase** in operational productivity through streamlined workflow redesign
- Improved **operational accuracy by 40%** and increased **log compliance by 65**% via redesigned checklist system deployed to **200+ plant operators at KRPL**
- Built **complete design system** spanning **Information Architecture, user flows, wireframes, and component library**—ensuring **consistency across 120+ screens**
- Launched **AR SOPs** and **VR training simulators**, eliminating **3 to 7 day classroom training cycles** and enabling real-time operational guidance for field operators
- Designed **real-time dashboards for on-site and remote plant monitoring**, enabling data-driven decision-making for facility managers across 3 client installations
- **Achieved 85% user satisfaction** score through comprehensive UX research including interviews, surveys, and usability testing

Aug 2022 - Aug 2023

Praj Industies | Hinjewadi, Pune.

Graduate Engineering Trainee

- Designed pressure vessels, heat exchangers, and tanks according to ASME standards for industrial applications
- Iterated engineering designs based on testing feedback and analytical validation, ensuring compliance with safety regulations
